

STAGE 5 INDUSTRIAL TECHNOLOGY - TIMBER INDUSTRY | 200-HOUR ELECTIVE

Clock | 50-period teaching program

Industrial Technology 7-10 Syllabus (2025) | Syllabus-aligned network review copy v2.1

Course	Stage 5 Industrial Technology - Timber industry 200-hour elective	Syllabus	Industrial Technology 7-10 Syllabus (2025)
Delivery	2027 early implementation 20 weeks	Timetable	50 x 60-minute periods
Pattern	5 periods per fortnight	Lesson balance	10 Site/theory 10 Project/folio 30 Practical
Master placement	Supplied master placement is approximately 15 weeks	Implementation	School-selected early use in 2027; official start 2028
Official source	NSW Curriculum official page verified 29 Aug 2026	Focus	Timber industry + Project development
Status	Standalone project program Word, PDF and schema manifest v2.1	Approval	Teacher to confirm before delivery
Complete reusable project-site program; the shared master controls the scheduled duration. Complete official outcomes appear below; period rows keep plain-English syllabus content first and codes secondary.			

Official Stage 5 outcomes

Outcome	Exact official wording	Outcome	Exact official wording
INT5-SAF-01	applies risk management and safe work practices in industrial technology contexts	INT5-EVL-01	evaluates the functional, aesthetic, economic and environmental qualities of products
INT5-COM-01	communicates ideas and processes in industrial technology contexts	INT5-INP-01	analyses and applies a range of industrial processes in production contexts
INT5-ENV-01	assesses the impact of industrial activities and practices on society and the environment	INT5-PRO-01	demonstrates practical skills in the production of projects
INT5-DES-01	selects and applies design, project management and technical skills in project production	INT5-IND-01	investigates and explains a range of industry careers, enterprise opportunities and practices
INT5-USE-01	selects and justifies the use of materials, tools and equipment to undertake projects		

What students are learning

Learning focus	In plain English	Learning focus	In plain English
Safe work practices	Manage risks and work safely in industrial technology contexts.	Evaluation	Evaluate function, appearance, cost and environmental qualities.
Communication	Communicate project ideas, decisions, processes and evidence clearly.	Industrial processes	Analyse and apply suitable industrial processes in production.
Society and environment	Assess how industrial activities affect people, society and the environment.	Project production	Demonstrate practical skills while producing quality projects.
Design and project management	Select and apply design, planning, management and technical skills.	Industry and careers	Investigate timber-industry practices, enterprise and career opportunities.
Materials, tools and equipment	Select and justify suitable materials, tools and equipment.		

Teaching program | Periods 1-10

10 x 60-minute lessons. Linked labels open the exact live theory, check and folio destinations.

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
1	Site / theory	Weeks 1-2 website	Understanding the Clock project brief and success criteria · Check: Weeks 1-2 knowledge checks (Q1-4) · 2 guided responses.	Factors that shape a project design and its specifications · INT5-DES-01, INT5-EVL-01, INT5-ENV-01	Website responses and guided response.
2	Project / folio	Weeks 1-2	Reading the Clock working drawing without scaling · Check: Weeks 1-2 knowledge checks (Q5-8) · 1 guided response · Folio: evidence + next step.	Accurate timber marking-out tools, processes and equipment · INT5-PRO-01, INT5-INP-01, INT5-USE-01	Folio evidence, decision and next step.
3	Practical	Weeks 1-2	Before practical · Managing workshop hazards and risks for the Clock · Check: Weeks 1-2 knowledge checks (Q9-12) · 1 guided response · Then teacher-approved practical.	The principles of risk management and implement risk-reduction procedures · INT5-SAF-01	Approved setup, process, skill, quality and clean-down.
4	Practical	Weeks 1-2	Continue the approved stage; follow the plan/SOP; check fit, accuracy or surface.	Risk management and risk-reduction procedures · INT5-SAF-01	Approved setup, process, skill, quality and clean-down.
5	Practical	Weeks 1-2	Record a checkpoint photo and problem/response; check quality; clean down.	Prepare timber surfaces for finishes · INT5-PRO-01, INT5-INP-01, INT5-USE-01	Checkpoint photo, quality note and problem response.
6	Site / theory	Weeks 3-4 website	Timber grain, structure and defects in Clock components · Check: Weeks 3-4 knowledge checks (Q1-4) · 2 guided responses.	Quality checks to assess timbers and components for defects before, during and after production · INT5-PRO-01, INT5-INP-01, INT5-USE-01	Website responses and guided response.
7	Project / folio	Weeks 3-4	Writing a Work Method Statement for the Clock · Check: Weeks 3-4 knowledge checks (Q5-8) · 1 guided response · Folio: evidence + next step.	Written texts to document, reflect on and evaluate project development, production and management processes · INT5-COM-01	Folio evidence, decision and next step.
8	Practical	Weeks 3-4	Before practical · Cutting lists, material calculations and cost planning · Check: Weeks 3-4 knowledge checks (Q9-12) · 1 guided response · Then teacher-approved practical.	Accurate measuring and marking-out for timber projects · INT5-PRO-01, INT5-INP-01, INT5-USE-01 Materials lists and calculate quantities and costs when making projects · INT5-DES-01, INT5-INP-01, INT5-PRO-01	Approved setup, process, skill, quality and clean-down.
9	Practical	Weeks 3-4	Continue the approved stage; follow the plan/SOP; check fit, accuracy or surface.	Risk management and risk-reduction procedures · INT5-SAF-01	Approved setup, process, skill, quality and clean-down.
10	Practical	Weeks 3-4	Record a checkpoint photo and problem/response; check quality; clean down.	Prepare timber surfaces for finishes · INT5-PRO-01, INT5-INP-01, INT5-USE-01	Checkpoint photo, quality note and problem response.

Teacher to confirm: Periods 1-10 timing, practical authority, supports, evidence checks and assessment conditions.

Teaching program | Periods 11-20

10 x 60-minute lessons. Linked labels open the exact live theory, check and folio destinations.

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
11	Site / theory	Weeks 5-6 website	Planning and drilling the Clock face opening · Check: Weeks 5-6 knowledge checks (Q1-4) · 2 guided responses.	Accurate measuring and marking-out for timber projects · INT5-PRO-01, INT5-INP-01, INT5-USE-01 Safe equipment setup using guards, SOPs, SDSs, workholding, correct settings and dust control · INT5-SAF-01, INT5-USE-01	Website responses and guided response.
12	Project / folio	Weeks 5-6	Building an accurate drill press Safe Operating Procedure · Check: Weeks 5-6 knowledge checks (Q5-8) · 1 guided response · Folio: evidence + next step.	Risk management and risk-reduction procedures · INT5-SAF-01	Folio evidence, decision and next step.
13	Practical	Weeks 5-6	Before practical · Workshop housekeeping and care of Clock tools · Check: Weeks 5-6 knowledge checks (Q9-12) · 1 guided response · Then teacher-approved practical.	Risk management and risk-reduction procedures · INT5-SAF-01 Hand tools and equipment, including cleaning, lubricating or replacing consumables, such as blades, bits and abrasives · INT5-SAF-01, INT5-USE-01	Approved setup, process, skill, quality and clean-down.
14	Practical	Weeks 5-6	Continue the approved stage; follow the plan/SOP; check fit, accuracy or surface.	Risk management and risk-reduction procedures · INT5-SAF-01	Approved setup, process, skill, quality and clean-down.
15	Practical	Weeks 5-6	Record a checkpoint photo and problem/response; check quality; clean down.	Prepare timber surfaces for finishes · INT5-PRO-01, INT5-INP-01, INT5-USE-01	Checkpoint photo, quality note and problem response.
16	Site / theory	Weeks 7-8 website	Rebate joints in the Clock carcass · Check: Weeks 7-8 knowledge checks (Q1-4) · 2 guided responses.	Carcase, framing and box joints including rebates, housings, dovetails, bridles and mortice-and-tenon · INT5-PRO-01, INT5-INP-01, INT5-USE-01	Website responses and guided response.
17	Project / folio	Weeks 7-8	Chamfered edges: controlled shaping and design effect · Check: Weeks 7-8 knowledge checks (Q5-8) · 1 guided response · Folio: evidence + next step.	Design factors and project specifications · INT5-DES-01, INT5-EVL-01, INT5-ENV-01	Folio evidence, decision and next step.
18	Practical	Weeks 7-8	Before practical · Adhesive assembly, squareness and clamping · Check: Weeks 7-8 knowledge checks (Q9-12) · 1 guided response · Then teacher-approved practical.	Accurate measuring and marking-out for timber projects · INT5-PRO-01, INT5-INP-01, INT5-USE-01	Approved setup, process, skill, quality and clean-down.
19	Practical	Weeks 7-8	Continue the approved stage; follow the plan/SOP; check fit, accuracy or surface.	Risk management and risk-reduction procedures · INT5-SAF-01	Approved setup, process, skill, quality and clean-down.
20	Practical	Weeks 7-8	Record a checkpoint photo and problem/response; check quality; clean down.	Prepare timber surfaces for finishes · INT5-PRO-01, INT5-INP-01, INT5-USE-01	Checkpoint photo, quality note and problem response.

Teacher to confirm: Periods 11-20 timing, practical authority, supports, evidence checks and assessment conditions.

Teaching program | Periods 21-30

10 x 60-minute lessons. Linked labels open the exact live theory, check and folio destinations.

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
21	Site / theory	Weeks 9-10 website	The hidden drawer: accuracy, clearance and fit · Check: Weeks 9-10 knowledge checks (Q1-4) · 2 guided responses.	Quality checks for timber and components · INT5-PRO-01 , INT5-INP-01 , INT5-USE-01	Website responses and guided response.
22	Project / folio	Weeks 9-10	Responsible material use and off-cut selection · Check: Weeks 9-10 knowledge checks (Q5-8) · 1 guided response · Folio: evidence + next step.	How recycled or repurposed materials are used in a timber-based project · INT5-USE-01 , INT5-ENV-01	Folio evidence, decision and next step.
23	Practical	Weeks 9-10	Before practical · Testing drawer fit and diagnosing faults · Check: Weeks 9-10 knowledge checks (Q9-12) · 1 guided response · Then teacher-approved practical.	Accurate measuring and marking-out for timber projects · INT5-PRO-01 , INT5-INP-01 , INT5-USE-01	Approved setup, process, skill, quality and clean-down.
24	Practical	Weeks 9-10	Continue the approved stage; follow the plan/SOP; check fit, accuracy or surface.	Risk management and risk-reduction procedures · INT5-SAF-01	Approved setup, process, skill, quality and clean-down.
25	Practical	Weeks 9-10	Record a checkpoint photo and problem/response; check quality; clean down.	Prepare timber surfaces for finishes · INT5-PRO-01 , INT5-INP-01 , INT5-USE-01	Checkpoint photo, quality note and problem response.
26	Site / theory	Weeks 11-12 website	Timber moisture, seasoning and dimensional stability · Check: Weeks 11-12 knowledge checks (Q1-4) · 2 guided responses.	Accurate measuring and marking-out for timber projects · INT5-PRO-01 , INT5-INP-01 , INT5-USE-01	Website responses and guided response.
27	Project / folio	Weeks 11-12	Selecting timber for function, appearance and responsible use · Check: Weeks 11-12 knowledge checks (Q5-8) · 1 guided response · Folio: evidence + next step.	Comparing hardwood and softwood properties to justify material selection · INT5-USE-01 , INT5-ENV-01	Folio evidence, decision and next step.
28	Practical	Weeks 11-12	Before practical · Sanding for a consistent oil-ready surface · Check: Weeks 11-12 knowledge checks (Q9-12) · 1 guided response · Then teacher-approved practical.	Accurate measuring and marking-out for timber projects · INT5-PRO-01 , INT5-INP-01 , INT5-USE-01	Approved setup, process, skill, quality and clean-down.
29	Practical	Weeks 11-12	Continue the approved stage; follow the plan/SOP; check fit, accuracy or surface.	Risk management and risk-reduction procedures · INT5-SAF-01	Approved setup, process, skill, quality and clean-down.
30	Practical	Weeks 11-12	Record a checkpoint photo and problem/response; check quality; clean down.	Prepare timber surfaces for finishes · INT5-PRO-01 , INT5-INP-01 , INT5-USE-01	Checkpoint photo, quality note and problem response.
Teacher to confirm: Periods 21-30 timing, practical authority, supports, evidence checks and assessment conditions.					

Teaching program | Periods 31-40

10 x 60-minute lessons. Linked labels open the exact live theory, check and folio destinations.

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
31	Site / theory	Weeks 13-14 website	Planning the three-coat oil finish · Check: Weeks 13-14 knowledge checks (Q1-4) · 2 guided responses.	Accurate measuring and marking-out for timber projects · INT5-PRO-01, INT5-INP-01, INT5-USE-01	Website responses and guided response.
32	Project / folio	Weeks 13-14	Oil finish safety, application and between-coat quality · Check: Weeks 13-14 knowledge checks (Q5-8) · 1 guided response · Folio: evidence + next step.	Risk management and risk-reduction procedures · INT5-SAF-01	Folio evidence, decision and next step.
33	Practical	Weeks 13-14	Before practical · Accurate fit-up of the battery clock mechanism · Check: Weeks 13-14 knowledge checks (Q9-12) · 1 guided response · Then teacher-approved practical.	Accurate measuring and marking-out for timber projects · INT5-PRO-01, INT5-INP-01, INT5-USE-01	Approved setup, process, skill, quality and clean-down.
34	Practical	Weeks 13-14	Continue the approved stage; follow the plan/SOP; check fit, accuracy or surface.	Risk management and risk-reduction procedures · INT5-SAF-01	Approved setup, process, skill, quality and clean-down.
35	Practical	Weeks 13-14	Record a checkpoint photo and problem/response; check quality; clean down.	Prepare timber surfaces for finishes · INT5-PRO-01, INT5-INP-01, INT5-USE-01	Checkpoint photo, quality note and problem response.
36	Site / theory	Weeks 15-16 website	Applying design principles to the Clock · Check: Weeks 15-16 knowledge checks (Q1-4) · 2 guided responses.	Design factors and project specifications · INT5-DES-01, INT5-EVL-01, INT5-ENV-01	Website responses and guided response.
37	Project / folio	Weeks 15-16	Technical sketches, orthographic views and clear communication · Check: Weeks 15-16 knowledge checks (Q5-8) · 1 guided response · Folio: evidence + next step.	Accurate measuring and marking-out for timber projects · INT5-PRO-01, INT5-INP-01, INT5-USE-01 The importance of graphical literacy for communication across industries · INT5-COM-01	Folio evidence, decision and next step.
38	Practical	Weeks 15-16	Before practical · Current and emerging timber technologies connected to the Clock · Check: Weeks 15-16 knowledge checks (Q9-12) · 1 guided response · Then teacher-approved practical.	Accurate measuring and marking-out for timber projects · INT5-PRO-01, INT5-INP-01, INT5-USE-01 Sustainable materials, technologies and practices when designing projects · INT5-DES-01, INT5-EVL-01, INT5-ENV-01 Digital technologies to develop and communicate ideas · INT5-COM-01 The environmental and societal impact of resources used in the development and production of timber projects · INT5-USE-01, INT5-ENV-01 Advanced manufacturing techniques to assist in the production of projects · INT5-PRO-	Approved setup, process, skill, quality and clean-down.

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
				01, INT5-INP-01, INT5-USE-01 Digital design tools to develop timber projects · INT5-PRO-01, INT5-INP-01, INT5-USE-01 Traditional and digital technologies to create components and detail surfaces for timber products · INT5-PRO-01, INT5-INP-01, INT5-USE-01 Processes, techniques and equipment used in industry to those found in the classroom · INT5-PRO-01, INT5-INP-01, INT5-USE-01 Work and enterprise skills required in the timber industry · INT5-IND-01, INT5-ENV-01 Ethical, cultural and sustainability practices used in the timber industry · INT5-IND-01, INT5-ENV-01 New and emerging technologies and their influence on the timber industry · INT5-IND-01, INT5-ENV-01 The effects of the timber industry on society and the environment · INT5-IND-01, INT5-ENV-01 How timber industry practices evolve in response to changes in technology, society and the environment · INT5-IND-01, INT5-ENV-01 Trade and career opportunities across the timber industry · INT5-IND-01, INT5-ENV-01 The impact of new and emerging technologies on careers and professions in the timber industry · INT5-IND-01, INT5-ENV-01	
39	Practical	Weeks 15-16	Continue the approved stage; follow the plan/SOP; check fit, accuracy or surface.	Risk management and risk-reduction procedures · INT5-SAF-01	Approved setup, process, skill, quality and clean-down.
40	Practical	Weeks 15-16	Record a checkpoint photo and problem/response; check quality; clean down.	Prepare timber surfaces for finishes · INT5-PRO-01, INT5-INP-01, INT5-USE-01	Checkpoint photo, quality note and problem response.

Teacher to confirm: Periods 31-40 timing, practical authority, supports, evidence checks and assessment conditions.

Teaching program | Periods 41-50
